

# DAIRY SOLUTIONS: TIMED METERING PUMP

The DC830TMP is an economical single-product chemical dispensing system. The timed metering system is easy to program and set up. The large push button on the front face provides easy operation. The DC830TMP has two motor options to meet any chemical delivery need. Three models are available, labeled, and color-coded for chlorine, acid, or detergent.

## Features & Benefits

- ◆ The DC 830 TMP is designed to be used either manually or triggered by a wash controller or a laundry machine.
- ◆ 60 RPM pump delivers 22 oz of chemical per minute.
- ◆ Programming allows for the delay of the chemical for up to 4 minutes and 15 seconds, the maximum running time is the same. The lockout time can be 75 minutes. The lockout prevents the operator from manually injecting more chemicals during one wash cycle.
- ◆ Unit can be converted in the field, so it can be triggered by either a wash controller or a laundry machine
